

Jasmine Sullivan

Austintown, OH | jasminealexussullivan@gmail.com | [LinkedIn](#) | [Portfolio](#)

Cybersecurity, GRC, and IT professional with 7+ years of experience supporting SaaS platforms, healthcare technology systems, and enterprise environments. Experienced in authentication troubleshooting, incident response, workflow optimization, log analysis, and HIPAA-compliant operations, including hands-on support for Epic EMR workflows. Recognized for operational ownership, process improvement contributions, and cross-functional collaboration in high-volume support environments.

RELEVANT SKILLS & EXPERTISE

Tools/Languages: Linux, Windows, SQL (BigQuery), Splunk, Wireshark, Tcpdump, Suricata, Python

Security Practices: Information Security, Network Security, Vulnerability Assessment, Threat Analysis, Log Analysis, Security Frameworks and Controls

Technical Support: SaaS Support, VPN & MFA Troubleshooting, Authentication Support, Ticketing Systems (ServiceNow, Jira, Freshdesk), Ticket Management, Knowledge Base Management, Escalation Management, Root Cause Analysis

Software Platforms: Google Workspace, Slack, Microsoft 365, Microsoft Teams, Outlook, Zendesk, DataDog, Confluence, Active Directory, Okta, Epic EMR

Strengths: Problem-Solving, Collaboration, Attention to Detail, Calmness Under Pressure, Technical Troubleshooting, Workflow Optimization, Cross-Functional Collaboration, Incident Management

EDUCATION, CERTIFICATES, & CERTIFICATIONS

AAB Information Technology Cybersecurity • *Cuyahoga Community College, Cleveland, OH*

Exp. 05/2027

- Honor Student 3.5 GPA, Phi Theta Kappa Honor Society

Google Cybersecurity Professional Certificate • *Merit America*

Exp. 09/2026

- Cultivated holistic understanding of cybersecurity's critical role in organizational security, privacy, and success, including how to systematically identify and mitigate risks, threats, and vulnerabilities
- Gained practical experience with **Linux**, **SQL**, **Python** and utilized **SIEM tools**, **IDS**, and **network protocol analyzers** for proactive threat management
- Applied knowledge to real-world scenarios, developing skills in proactive **threat detection** and **response** through completion of dynamic hands-on projects, including: conducting a simulated **security audit**, responding to a **cyber incident**, analyzing **vulnerable systems**, and completing an **incident handler's journal**

Google Cybersecurity Professional Certificate

06/2026

Google Project Management Professional

06/2026

Google IT Automation with Python

06/2026

Google IT Support Professional Certificate:

06/2026

Skill development includes **troubleshooting**, **customer support**, **networking**, **operating systems**, **systems administration**, and **security** — all the fundamentals of IT support that are critical for success in the workplace; comparable to the latest CompTIA A+ certification

AWARDS & RECOGNITION

Winning Attitude Award — Q3 2025

Winning Attitude Award — Q4 2024

Aya Spirit Award — Q1 2024

Promoted internally from Customer Support Representative I to Customer Support Representative II based on technical performance, operational contributions, and team impact
Recognized for workflow optimization, cross-functional collaboration, and proactive support process improvements

CYBERSECURITY PROJECTS

TryHackMe Rooms: Utilized interactive, gamified virtual environment to enhance practical knowledge and hands-on skills:

- **Linux Fundamentals** (1, 2, & 3) and **Linux Strength Training** - Navigated directories and files, adjusted permissions, analyzed logs, explored common utilities
- **Intro to Logs** and **Log Analysis** - Identified log types, located logs, employed regular expressions (RegEx), and utilized command line and CyberChef for effective log analysis
- **Wireshark Basics** and **Wireshark 101** - Gained proficiency in packet dissection, navigation, and filtering techniques; analyzed ARP, ICMP, TCP, DNS, HTTP, and HTTPS traffic for network troubleshooting and security analysis
- **Windows Fundamentals** (1, 2, & 3) and **Windows Forensics** (1 & 2) - Acquired fundamental understanding of Windows, including file systems, user account control (UAC), control panel, system configuration, security, firewall, registry, and FAT/NTFS file systems; developed skills in accessing hives, utilizing registry explorer, and recovering files
- **Splunk Basics**, **Incident Handling with Splunk**, and **Splunk** (2 & 3) - Developed skills in navigating Splunk; conducting incident handling using Splunk; participated in the Boss of the SOC investigation for security analysis

PROFESSIONAL EXPERIENCE

Customer Support Representative II (IT Support & Operations) • *Aya Healthcare, Remote*

06/2024 – Present

- Managed 40+ technical incidents daily across chat, email, and ticketing platforms while maintaining 90%+ SLA adherence in a high-volume healthcare SaaS environment.
- Troubleshoots MFA, VPN, authentication, login, and application-related issues across multiple systems to support secure access and operational continuity.
- Resolved 85%+ of Tier 1 support issues independently while maintaining high service quality and efficient issue resolution across enterprise healthcare systems.
- Maintained 96%+ CRM and ticket logging accuracy while documenting technical escalations, troubleshooting workflows, and operational findings across ServiceNow and Freshdesk.
- Analyzed logs using DataDog to investigate root causes of recurring technical issues, contributing to targeted system improvements, workflow optimization, and operational efficiency
- Trained and mentored 3 newly hired support analysts, improving onboarding efficiency and supporting team-wide operational readiness
- Identified recurring ticket trends and case drivers, contributing workflow improvement recommendations that improved support efficiency, routing accuracy, and escalation handling

Customer Support Representative • *Aya Healthcare, Remote*

06/2023 – 06/2024

- Delivered technical and account support in a high-volume environment via chat and email, maintaining efficient service delivery.
- Resolved authentication, account access, login, and system-related issues while maintaining accuracy, compliance, and efficient service delivery.
- Documented technical incidents, collaborated with internal teams on escalations, and contributed to workflow improvements that enhanced operational support processes.

Customer Support Generalist • *Amazon, Remote*

01/2017 – 11/2019

- Provided high-volume customer support via phone, chat, and email, effectively serving diverse service lines.
- Consistently resolved customer concerns efficiently while exceeding service quality and performance standards.

- Ensured strict adherence to HIPAA compliance standards by managing sensitive patient data, including privacy and access control.
- Coordinated scheduling and administrative workflows, improving the efficiency of daily operations in a fast-paced healthcare environment.
- Verified patient identity and managed intake documentation while ensuring compliance with HIPAA privacy standards and secure handling of sensitive healthcare information.
- Assisted staff with scheduling system navigation, password/login issues, and basic troubleshooting of EMR and administrative platforms in a fast-paced healthcare environment. Maintained accurate patient records within Electronic Medical Record (EMR) systems, supporting audit readiness through detailed documentation, data verification, and HIPAA-compliant record management practices.

- Provided specialized technical support for Apple devices (iPhone and Mac), resolving complex hardware, software, and account-related issues.
- Guided customers through step-by-step troubleshooting, consistently maintaining high customer satisfaction ratings.
- Escalated complex technical issues with detailed summaries, ensuring seamless handover while sustaining excellent customer satisfaction.
